**VILLA CASSANDRA**

Designed and built by a Norman Foster trained architect, part of a unique estate, this luxury villa with pool in north-east Corfu, combines a strong Venetian influence complementing traditional Corfiot features, thus resulting in ultimate contemporary comfort.

## VILLA CASSANDRA CORFU, GREECE

Villa Cassandra is part of a unique estate which consists of two stunning properties, the elegant and utterly luxurious Villa Cassandra with its sensational pool and entertaining area and the enchanting, incredibly comfortable and more intimate Villa Ambrosio, also featured in our portfolio. Both of these luxury villas in north east Corfu, 1 hr drive for Corfu town, offer privacy, luxurious accommodation and stunning pool areas with much sought after sea access. A network of pathways weaves their way through the estate's beautiful indigenous flora and woodland to a private jetty, a small pebble beach where guests can swim from sun drenched rocks. Cobalt blue seas and the dramatic Albanian mountains provide a sublime backdrop for the Estate.

### LAYOUT

A magnificent 16m sitting room with sunlight streaming through the nine French windows opening onto a breathtaking terrace with spectacular mountain and sea views. This serene and glamorous sitting room has stone floors and two beautiful open Corfiot fireplaces at either end. Furnished with comfortable sofas and chairs and internationally sourced fabrics, art and artefacts it provides the perfect balance of elegance and comfort at one end of the room, with a dining table seating 14 guests. A well-equipped and state of the art kitchen opens out onto a fabulous outdoor covered entertaining area with its own bar, barbecue and outside dining table for up to 20 guests.

There is direct access from the courtyard into the first master bedroom suite and adjoining guest room.
