

BRIGHT BLUE
VILLAS

VILLA FELICITY

A villa where its grey stone walls are in perfect harmony with the statue shaped granite rocks that rule its surroundings and make a perfect colour contrast with the bright blue waters that span in front of it

VILLA FELICITY

MYKONOS, GREECE

Villa Felicity sits on the wonderful giant rocks overlooking the bay of Kalafatis and the surrounding beaches. Its minimal architecture emphasizes the uniqueness of the outdoor space, which embodies the wonderful giant rocks of the hill, a protected geological monument of granite boulders shaped as statues.

The purpose behind this structure was the illustration of the natural environment and not the creation of an artificial garden- but actually you feel like you are looking at a sculpture park. From its patios the views are magnificent and the infinity pool is a realistic extension of the Aegean bright blue waters that dominate the horizon.

LAYOUT

Villa Felicity spans on 3 floors offering privacy to its residents and can accommodate up to 8 guests in 4 bedrooms that all have their own en-suite bathrooms.

An open plan kitchen and the living room can be found on the main level leading to the shaded outdoor dining area which is well protected on windy days and offers unique views to the Aegean Sea that spans in front of it.

One floor up, two double bedrooms, one of them en suite, decorated in earthy colours, can accommodate 4 guests.

On the ground floor, there are 2 additional bedrooms (both en suite), with its own entrance, offers its guests privacy and independence.

What we like: the amazing views, stylish property suitable even for 4 guests or a couple with older children
