

BRIGHT BLUE
VILLAS

VILLA LETO

An all white brand new villa that spans on 3 levels and can accommodate up to 19 guests

VILLA LETO

MYKONOS, GREECE

Villa Leto is ready to host demanding travelers. Its 90 sqm heated infinity swimming pool steals all the lights and its underwater bar can offer relaxing afternoon moments. The total landplot is 2000 sqm, 550 sqm more of built villa and 450 of decks and outdoor spaces.

LAYOUT

On the first floor you will find five rooms in total all en suite, air conditioned with a view of the infinitive Aegean Bright Blue Sea, huge beds with branded mattresses and sheets.

At the second floor, you will happily face the pool area with a large living room decorated with natural unique and minimal items from around the world, where there are several areas for dining, relaxing and swimming.

Close to the pool, you find the BBQ area with outdoor dining tables, sunbeds and hammocks and many corners for isolation during reading or just pure romance. Another private bar made of woods and champagnes is located at the very same area offering another private corner for

champagne parties and more. At the top of this area, we find another private small deck, ideal for the most unexpected photos in front of the sunrise or sunset!

At the third floor you encounter the two last Master rooms with independent entrances in the most modern and luxurious decoration you have ever seen. Between the two rooms there is again a wooden deck with cozy and minimal-designed sunbeds and salons with music systems!
